

## PRESS RELEASE

# Heidelberg Pharma Presents at Upcoming Conferences and Investor Events

**Ladenburg, Germany, 30 April 2018** – Heidelberg Pharma AG (FSE: WL6) today announced that they will participate at upcoming conferences and investor events, and present the company as well as their proprietary ATAC technology platform. Heidelberg Pharma's management will be available for one-on-one meetings at these events.

# 14th Annual PEGS: The Essential Protein Engineering Summit

Date: 30 April - 04 May 2018

Venue: Seaport World Trade Center, Boston, USA

Professor Andreas Pahl, Chief Scientific Officer of Heidelberg Pharma, will present the following speech on Wednesday, 02 May 2018 at 09:10 a.m. EDT:

Antibody Targeted Amanitin Conjugates (ATACs) – Expanding the ADC landscape with a new payload targeting RNA Polymerase II

## Non Deal Roadshow USA

07 - 08 May 2018: New York 09 - 10 May 2018: Boston

# Bio€quity Europe 2018

Date: 14 - 16 May 2018

Venue: Het Pand Conference Center, Ghent, Belgium

Dr. Jan Schmidt-Brand, Chief Executive Officer and Chief Financial Officer of Heidelberg Pharma, will hold a company presentation on Tuesday, 15 May 2018 at 06.00 p.m. CEST.

# About Heidelberg Pharma's proprietary ATAC technology

Antibody Drug Conjugates (ADCs) combine the high affinity and specificity of antibodies with the potency of cytotoxic small molecules for the treatment of cancer. Antibody Targeted Amanitin Conjugates (ATACs) are ADCs whose active ingredient is made up of amatoxin molecules. Amatoxins are small bicyclic peptides naturally occurring in the death cap mushroom. They inhibit mRNA transcription by binding to RNA polymerase II, a mechanism that is crucial for the survival of eukaryotic cells. In preclinical testing, ATACs have been shown to be highly efficacious, overcoming frequently encountered resistance mechanisms and combating even quiescent tumor cells.

## **About Heidelberg Pharma**

Heidelberg Pharma AG is a biopharmaceutical company based in Ladenburg, Germany. Heidelberg Pharma is an oncology specialist and the first company to develop the toxin Amanitin into cancer therapies using its proprietary Antibody Targeted Amanitin Conjugate (ATAC) technology and to advance the biological mode of action of the toxin as a novel therapeutic principle. This proprietary technology platform is being applied to develop the Company's proprietary therapeutic ATACs, as well as in third-party collaborations, to create a variety of ATAC candidates. The proprietary lead candidate is HDP-101, a BCMA ATAC for multiple myeloma.

The Company has entered into partnerships to further develop and commercialize its clinical assets MESUPRON® and REDECTANE®, while RENCAREX® is available for out-licensing and further development. Heidelberg Pharma AG is listed on the Frankfurt Stock Exchange: ISIN DE000A11QVV0 / WKN A11QVV / Symbol WL6.
