

PRESS RELEASE

Heidelberg Pharma Presents Proprietary ATAC Technology Platform at Two Scientific Conferences

Ladenburg, Germany, 11 June 2019 – Heidelberg Pharma AG (FWB: WL6) today announced that they will present their proprietary technology for Antibody Targeted Amanitin Conjugates as potential therapeutic modality for cancer therapy at two upcoming scientific conferences.

2nd World ADC Asia Conference

Date: 11 – 13 June 2019

Venue: Wyndham Grand Plaza Royale Oriental, Shanghai, China

Dr. George Badescu, Vice President Scientific Affairs, will present on Wednesday, 12 June 2019 at 14:30 CST.

Information on the conference: <https://worldadc-asia.com/>

Next Generation Protein Therapeutics & Bioconjugates Summit

Date: 18 June 2019

Venue: Park Central Hotel, San Francisco, CA, USA

Dr. George Badescu, Vice President Scientific Affairs, will present on Tuesday, 18 June 2019 at 11:00 PDT.

Information on the conference: <https://get.knect365.com/next-gen-protein/brochure/>

About Heidelberg Pharma's proprietary ATAC technology

Antibody Drug Conjugates (ADCs) combine the high affinity and specificity of antibodies with the potency of cytotoxic small molecules for the treatment of cancer. Antibody Targeted Amanitin Conjugates (ATACs) are ADCs whose active ingredient is made up of amatoxin molecules. Amatoxins are small bicyclic peptides naturally occurring in the death cap mushroom. They inhibit mRNA transcription by binding to RNA polymerase II, a mechanism that is crucial for the survival of eukaryotic cells. In preclinical testing, ATACs have been shown to be highly efficacious, overcoming frequently encountered resistance mechanisms and combating even quiescent tumor cells.

About Heidelberg Pharma

Heidelberg Pharma AG is a biopharmaceutical company based in Ladenburg, Germany. Heidelberg Pharma is an oncology specialist and the first company to develop the toxin Amanitin into cancer therapies using its proprietary Antibody Targeted Amanitin Conjugate (ATAC) technology and to advance the biological mode of action of the toxin as a novel therapeutic principle. This proprietary technology platform is being applied to develop the Company's proprietary therapeutic ATACs, as well as in third-party collaborations, to

create a variety of ATAC candidates. The proprietary lead candidate is HDP-101, a BCMA ATAC for multiple myeloma.

The Company has entered into partnerships to further develop and commercialize its clinical assets MESUPRON® and REDECTANE®. Heidelberg Pharma AG is listed on the Frankfurt Stock Exchange: ISIN DE000A11QVV0 / WKN A11QVV / Symbol WL6. More information is available at www.heidelberg-pharma.com.
